Elder George Reynolds,
President's Office S. L. City.
Dear brother Reynolds:-

I intend to leave for a two years' stay in Germany in a few weeks. A friend, who is going to Germany on a Mission, told me that you sent him a blank, with instructions, for obtaining his passports from Washington. As I am unfamiliar with the details of procuring passports; and realizing that such a blank, constructed by you who send so many missionaries abroad yearly, might save me considerable trouble, I take the liberty of asking you for ~~one~~ two - my wife and I are going. I shall be glad to meet the charges for the blanks.

I am reading with great interest the scholarly papers on the Gospel in Great Britain. They will make a good book. Respectfully
J. A. Widsøe.
